

Dear Principal An, Dear Friends at No.17,

we would like to deliver our best thoughts and wishes honouring the 60th anniversary of the founding of your school. To appreciate this special occasion we are now happy to present you a Chinese version of our school's homepage:

<http://wtgn.de/china>

As your German sister school in Neustadt we are proud to share some part of your long history with you. Coming to your school always fills us with a feeling of coming home so we hope to establish, continue and strengthen that bond.

Our partnership has strongly deepened our understanding of and appreciation for both our cultures, breaking down resentments and misunderstandings. Getting to know each other's history and traditions as well as the ordinary life in families has been a gain to each and every one of us.

Our genuine interest in arts enabled us to start a vivid exchange, giving our students as well as the teachers the opportunity to learn and profit from our artistic experiences. The products of our artistic collaboration will accompany our students for the rest of their lives.

Our unique interest in providing our students with the knowledge and the tools they need to master their lives, needs to be mentioned as well. To achieve this goal, the personal relationship between teachers and their constant exchange regarding their teaching methods and experiences, have turned out to be invaluable.

Throughout the last year numerous personal relationships have already been built and hopefully are about to develop in the course of our friendship. Our partnership has been a wonderful and enriching experience for all of us and with excitement and joy we are looking forward to continue our flourishing relationship for 60 more years. After all it is the personal bond between people that leave a lasting impression.

Best wishes

Wolfgang Datz
(Oberstudienleiter)
