**Oct. 16, 2014**

**Mr Wolfgang Latz**

**Principal of School**

**Wiedtal Gymnasium Neustadt Wied**

**Germany**

**Dear Esteemed Mr Wolfgang Latz,**

**The sixty anniversary celebration of our school was held ceremoniously in the school campus on the morning of Oct 2. Thank you very much for your ebullient congratulations and well-prepared photo, especially the Chinese version of your school's homepage.**

**Because of the friendly co-operation and communication with your school, my teachers and students broaden our horizon. We have some more views and ideas in the school management and some further understanding to different cultures of different countries, which will improve our school development. I appreciate very much for what you have done for it.**

**Your letter of congratulations have been displayed in the school showcase and in the video of the celebrations.**

**On the morning of Oct.2, about six thousand people were present at the ceremony, including the leaders and teachers who had worked in our school, the graduates from home and abroad, and both the teachers and students who are**

now at school. The oldest retired teacher present was over 90 years old, who worked in the school from the establishment of the school. The sixty anniversary celebrations were warm, ceremonious and successful. The preparations started from 2013, lasting for more than one year to complete the School Records, Autograph Album and a book with many memories in it written by the teachers and students.

I am very happy and grateful to share the pleasure with you. Thank you for your support and encouragement. I do wish a good relationship and a further co-operation between us. I am looking forward to the friendship between us remaining forever and a more beautiful future for both of our sister schools.

Yours sincerely

An Bozhen  
Principal
