Mary Ward Catholic Secondary School  
Blessed Cardinal Newman Catholic School

## **For your better understanding of the venue of China Education Forum Summit 2017, here is a brief introduction of the venue: Qingdao City**

Qingdao (Tsingtao), Shandong Province, China

Lying on the south coast of the Shandong Peninsula, Qingdao is a city of picturesque red-tiled roofs nestled between green hills and blue sea. The mild climate, the bathing beach, and Mount Laoshan make Qingdao a popular health and holiday resort, particularly in summer when visitors come here in droves for sightseeing and escaping the heat.

Qingdao is also an industrial city and a major foreign trade port. Its mineral water, wine, and excellent Tsingtao Beer are world-famous. Among the local arts and crafts, shell carvings are especially popular with tourists.

In Qingdao, you will find a special seashore city where is not only a modern metropolis but with traditional Chinese characteristics.
